PUBLIC HEALTH NURSE

The following comprehensive report of the Public Health Nurse, shows to us all the value of the work, not alone in the nursing service but in cooperation with the National Red Cross and the State Welfare Work the assistance of the nurse has been invaluable. Much of this work cannot be tabulated, but the broad, sympathetic, common sense interest has been widely felt.

Signed:

ELIZABETH A. DODGE,
ANNA BELLE WOODWARD,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of the School District of the Town of Andover:

I submit herewith, my fifth annual report as superintendent of schools:

As this report goes to the printer, no word has been received from Washington that the request of the District for a grant and a loan for school house construction has been granted.

Because of this fact, the figures submitted in the proposed budget for the year 1934-35 are for the elementary schools only. No estimate can be given for the amount of money needed for secondary schools, either as to the amount necessary for the support of a high school or for the support of the girls' school and the tuition to be paid elsewhere. These figures will be prepared and presented later.

In the table, showing the financial standing of the district on January 31st, you will notice that the liabilities exceed the assets. This is due to extra demands on the district for transportation. Eight hundred dollars was raised for this purpose, while the budget for the current year calls for an expenditure of $1,213 for this item. Money should be raised at the coming meeting to take care of this increased cost of transportation.

The water situation is very bad at the East Andover school. Steps should be taken to remedy the situation. I suggest that an article be inserted in the warrent to see if the sum of $600 can be raised to provide running water and for the installation of flush toilets.

EARLE P. FREESE,
Superintendent of Schools.
